

Smart, Convenient, Efficient

TWINSULATOR *DH T210*

Thermally Broken Replacement Window

Heavy .062 aluminum extrusion with structural thermal barrier for maximum strength and insulation.

Double fin seal weatherstripping for maximum control of air infiltration even during extreme cold when most weatherstrippings fail.

3/4" insulated glass featuring Warm Edge Technology, Super Spacer from Edge Tech with **standard Double-Strength glass.**

Polyurethane thermal break in all frame and sash components to minimize heat and cold transfer.

Finishes come in dark bronze, white, and almond.
